

If your focus is on stability and scalability, NG series is a good choice for you!

Shanghai Sciway Scientific's products for Agilent, Waters, Thermo Fisher, and Shimadzu LC/MS nitrogen demands depending on the amount of gas produced, the generator can supply all the gases required for various LC/MS instruments. High-efficiency and stable nitrogen separation membranes, 0.01 micron filtration and high-throughput activated carbon adsorption system are selected. The product has been on the market for many years and has been tested to be stable and reliable.

- Generate pure nitrogen
- Cost of the product can be recovered in two to three years
- Long-term air supply without any manual supervision will be supplied
- 30 minutes maintenance per year
- Casters are available for effort saving
- No external power supply required
- Quiet during working
- Sciway offers extra customization

Index	Model NG1000	Model NG2000	Model NG3000	Model NG-X
Nitrogen	35 L/min @ 110 psi	70 L/min @ 110 psi	105L/min@110psi	Customization
Particles	<0.01 μm			
Phthalic acid	None			
Noise	None			
Power source	Not Required			
Dimensions ( W×D×H)	320x520x820mm			
Weight	Approx. 25-40 kg
